

Rea Azalea Max

A TAILOR-MADE SOLUTION

The Rea Azalea Max is designed to meet the specific needs of people with extra weight. The Rea Azalea Max complements the existing Azalea family range and offers the same features such as tilt-in-space and backrest recline.

Yes, you can.®

Confidence in posture solutions

Azalea Max

The Rea Azalea Max offers the same features as the rest of the Rea Azalea family such as tilt-in-space with weightshifting and Invacare's Dual Stability System (DSS).

The ergonomically shaped push handles are positioned close together for easier handling. An alternate version with higher handles offers a different position for the hands and is available as an option.

Features

The lower and upper parts of the shaped backrest are reversible, giving the option of more space in the seat or chest area.

The footplate comes with a removable mid section, to facilitate transfers.

Option for electric adjustment of tilt and recline via a hand control that can be used by the attendant or user.
