HEAD POSITIONING

Head Supports

See Whitmyer® Catalog for full offering (MKT3003-3)

Head Supports using our portfolio of Whitmyer® Headrests provide posterior, lateral, and occasionally anterior support of the head and neck for clients who may have difficulty maintaining an upright head posture or are using tilt-in-space wheelchairs. Options include numerous pad styles and configurations, six mounting hardware styles, and three cover materials for thousands of possible headrest configurations to meet your client's needs.

PLUSH

The Plush head support provides excellent posterior support with a high level of comfort and client safety.

ADJUST-A-PLUSH

The Adjust-a-Plush head support is designed for clients who exhibit minimal head control and require lateral support on at least one side to maintain an upright head posture.

CONTOUR CRADLE

The Contoured Cradle head support is designed to cradle the occipital region and provides superior lateral cervical support.

HEADS UP

The Heads Up head support provides posterior support as well as anterior and lateral stabilization of the shoulders and trunk for optimal head control.

S.O.F.T. DUAL SUB-OCCIPITAL ADULT & PEDIATRIC

The S.O.F.T. Dual Sub-Occipital head support features a three-pad device for superior sub-occipital and proximal lateral cervical support and ensures maximum support surface contact.

S.O.F.T. SINGLE SUB-OCCIPITAL

The S.O.F.T. Single Sub-Occipital head support provides outstanding sub-occipital and proximal lateral cervical support through use of a single curved sub-occipital pad.

CUDDLES INFANT

Cuddles Infant head supports include a three-pad support system and contoured cradle support designed specifically for newborns.
